The task group co-chairman called the meeting to order at 8:15 am. Revisions to the objective statement for the proposed ASTM standard(s) was developed. The preliminary statement was that the standard would be for glass containers which are destined to be used for containing candles. Group assignments were made. The assignments included a review of candle standards, available glass industry test facilities, availability of incident data. The task group will be announced to ASTM as a committee. Co-chairman will ask ASTM what it requires the committee to do as a time line. The meeting adjourned at 11:00 am.
